SUMMARY

I am a dedicated and skilled full-stack developer with 2 years of hands-on experience building and deploying full-stack applications using MERN and PHP. My background includes working in large, collaborative teams, where I contributed to complex projects that required meticulous attention to detail and coordination. I have actively participated in and led open-source projects, demonstrating strong technical expertise and leadership abilities. My approach is grounded in continuous learning, staying updated with the latest technologies to enhance my contributions to each project.
